

Filtering Facepiece Respirator

For product details please visit our website, contact Customer Service or your Account Executive **TODAY** via phone, email or live chat. We also offer home delivery & pick up at our Herkimer, Cortland & Rome retail locations for your convenience!

Filtering facepiece respirators (FFR) provide a much higher level of protection with face form fitting and greater pressure drop. An KN95 respirator is a respiratory protective device designed to achieve a very close facial fit and very efficient filtration of airborne particles. The KN95 designation means that when subjected to careful testing, the respirator blocks at least 95 percent of very small (0.3 microns) test particles. If properly fitted, the filtration capabilities of KN95 respirators exceed those of face masks. 50/BX.

Item # SPZ ZK601

Item is non-cancellable & non-returnable. Offer valid while supplies last. Prices are subject to change. All items may not be available for next-day delivery. This sale cannot be combined with any other sale or discount offered by Hummel's Office Plus.
